Storage rules
SQLite file at TODO_DB_PATH (ADR-0003); schema owned by Flyway (ADR-0014)
Only a table's owner reads or writes it; todo takes user_id only from CurrentUser and its SQL never names users or sessions (sdd §3, ADR-0018)
Pragmas: journal_mode=WAL, foreign_keys=ON, busy_timeout=5000; one pooled connection (ADR-0016)
Timestamps are UTC text, so text order is time order (ADR-0017)
*_search and identifier_key are derived lower-case columns (ADR-0015)
The database never holds a usable session token or plain password (ADR-0004, ADR-0005)

Legend
Blue box: table (columns, types, rules) · Dashed box: owning module or composition root · Crow's-foot line: many-to-one foreign key, labelled with relationship and delete rule
