Legend

Route / page component

Layout or guard (dashed)

Arrow: verb [mechanism], points to where the visitor is sent

Citations (as built)
Route table, catch-all behind RequireAuth: web/src/app/AppRoutes.tsx:L12-L49 (REQ-NAV-001 AC-1, AC-3, AC-8).
RequireAuth: nothing while unknown, replace to /login?returnTo= when signed out, session-ended message state: web/src/auth/RequireAuth.tsx:L21-L37 (REQ-AUTH-004 AC-2, AC-4).
PublicRoute: signed-in visitor sent on, /login via safeReturnTo: web/src/auth/RequireAuth.tsx:L40-L48.
AppShell skip link, Log out control and polite live region: web/src/app/AppShell.tsx:L45-L72 (REQ-AUTH-004 AC-3, NFR-001).
Per-route page behaviour beyond these files is stated in docs/specs/CHG-0001/sdd.md section 4.1 and 8 (page files not re-read here).
