Citations (as built)
RequestIdFilter registered ahead of the security chain (order -200, REQUEST and ERROR dispatch): api/src/main/java/app/todo/config/WebConfig.java:L18-L27; request id and one log line per request: api/src/main/java/app/todo/common/RequestIdFilter.java:L18-L21, L44-L72.
Security chain order and 401 entry point: api/src/main/java/app/todo/config/SecurityConfig.java:L52-L60.
Cookie resolved via SessionService.resolve, CurrentUser set as principal: api/src/main/java/app/todo/auth/SessionCookieAuthenticationFilter.java:L33-L54.
AuthController operations: api/src/main/java/app/todo/auth/AuthController.java:L34-L59; AuthService holds UserRepository and SessionService: AuthService.java:L18-L28 (users used at L59, L88, L102).
SessionService holds only SessionRepository (SHA-256 token hash, 8 h): api/src/main/java/app/todo/auth/SessionService.java:L16-L32, L64-L70.
TodoController reads CurrentUser (app.todo.auth.api) with @AuthenticationPrincipal: api/src/main/java/app/todo/todo/TodoController.java:L3, L24-L74; TodoService: TodoService.java:L17-L86.
Owner-scoped repository contract: api/src/main/java/app/todo/todo/TodoRepository.java:L11-L32.
Single DataSource, pool of 1: api/src/main/java/app/todo/config/DatabaseConfig.java:L19-L39.
